Dear Governor Cooper,

I am writing to thank you for delaying the fracked gas pipeline water-crossings permit. As a resident of North Carolina I urge you to oppose the Atlantic Coast Pipeline and other permits for it, as well as to oppose other other fracking efforts. This is not the type of energy that we need in North Carolina. We need you to protect our health, air, and water over these corporate interests.

I urge you to explore the solar options that are available instead of these archaic, dirty pollution solutions that will only continue to make our lives bleak especially with climate change and the increased temperatures we see now with each passing year. As citizens and residents of North Carolina we need a bright future here, not a dirty polluted one that benefits corporate interests.

Thank you for your attention to these very dire issues.

Sincerely,  
Julie Thomson  
910 N. Mangum St, Apt B  
Durham, NC 27701
